# Outcomes Assessment

PHY-201 · Applied Physics · BSAI-5A

## CLO attainment

| CLO | Description | Attainment % |
|---|---|---|
| CLO1 | Explain physical quantities, measurement, units, dimensions, scalars, and vectors. | 66.66 |
| CLO2 | Apply laws of motion and kinematic equations to solve mechanics problems. | 66.92 |
| CLO3 | Analyze work, energy, power, and thermal concepts in applied physics contexts. | 66.54 |
| CLO4 | Explain basic electricity, circuits, waves, and sound with applied examples. | 66.46 |

## Assessment CLO summary

| CLO | Description | Weighted % | Local % |
|---|---|---|---|
| CLO1 | Explain physical quantities, measurement, units, dimensions, scalars, and vectors. | 100 | 100 |
| CLO2 | Apply laws of motion and kinematic equations to solve mechanics problems. | 100 | 100 |
| CLO3 | Analyze work, energy, power, and thermal concepts in applied physics contexts. | 100 | 100 |
| CLO4 | Explain basic electricity, circuits, waves, and sound with applied examples. | 100 | 100 |

## PLO attainment

| PLO | Description | Attainment % |
|---|---|---|
| PLO-5 | Communicate effectively with technical and non-technical audiences | 66.68 |
